- ☑ Develop your professional and leadership skills
- ☑ benefit from study, research and professional development opportunities
- ☑ build links with people, with universities, with other countries
- ☑ use your skills to support growth and development in our region
- ☑ apply for a prestigious Australian Leadership Award (ALA) Scholarship

These prestigious Australian scholarships are targeted to high achievers to undertake study in Australia at masters or doctoral level. Scholars also participate in a unique Leadership Development Program.

ALA Scholarships are tailored for people with potential to assume leadership roles and influence social and economic policy reform and development outcomes at home and in the region.

Entry is competitive and open to citizens of Asia-Pacific countries where Australia has an active aid program.

ALA Scholarships are managed through Australia's aid agency, AusAID, and facilitated in the country by the PNG-Australia Targeted Training Facility (PATTAF).

Study programs must relate to AusAID's priority areas of disability, economic growth, education, environment, food security, gender, governance, health, human rights, infrastructure, regional stability, rural development and water & sanitation. Scholars also undertake an extensive Leadership Development Program while in Australia.

ALL applicants must obtain proof of English language proficiency from within the last 2 years (IELTS or TOEFL), and an **Unconditional** letter of offer from a participating Australian University. Applicants should have a record of high level undergraduate or postgraduate academic achievement, and must not have held a scholarship to study outside his/ her home country in the 24 months preceding the application closing date.

Applications open 10 March 2010 and close 30 June 2010.

South Bougainville on the move - 2010 & beyond

SOUTH Bougainville is coming up as the region to be reckoned with in the Autonomous Region of Bougainville (ARB) in terms of impact project developments, and this all attributed to the incumbent South Bougainville MP, Honourable Steven Pirika Kamma.

Mr Pirika is a first timer into politics having entered the corridors of the PNG National Parliament in November 2008, after successfully winning Michael Laimo, the former South Bougainville MP of over 15 years in a recount of votes under the Court of Disputed Returns which was presided over by the National Court.

Being in office for just over a year, this man of vision and action has wasted no time, but made huge strides and impacts in South Bougainville with development and service oriented projects which the people are seeing tangible benefits after missing out for many years.

Despite his recent entry into politics, Mr Pirika-Kamma is well versed in the politics and business dealings of this country since he has been a businessman for over 20 years, managing PNG Pest Control, his private business entity and the biggest pest control company in PNG which to date has branches in seven provinces. It is his business management expertise which has greatly helped in managing and utilising the K10 million District Services Improvement Program (DSIP) funds as well as the members Non- Discretionary Funds (NDF) to community, service and economic oriented projects in the four districts which come under the South Bougainville Electorate. They include Buin, Siwai, Bana and Torokina. Located at the far southern end of Bougainville Island, people travel the long and winding highway but not an all weather road, cross so many big, medium and small rivers and are at the mercy of nature as they make their way into Buka town between 8-9 hours drive to access much needed services like health, education, banking, shopping and selling their cash and garden crops at the relevant market outlets.

Mr Pirika-Kamma was also one of the director's for three terms of what was previously known as PNG Harbours Board but now called PNG Port Services until his resignation in 2002 to contest the same seat in the national elections which he came second to veteran politician and member of the South Bougainville, Mr Laimo. In the 2007 National Elections, he contested again and lost by a mere 17 votes. Thus he took the matter up with the Court of Disputed Returns in which the National Court granted a recount, resulting in Mr Pirika-Kamma's successful win by 157 votes over Mr Laimo.

In just a year in office, Mr Pirika-Kamma has implemented 320 service oriented development projects and this in itself is a big achievement. These service oriented development projects focus on the rehabilitation and maintenance of the road infrastructure, health and education facilities and access to communication services which Mr Pirika-Kamma has spread over the four districts. But what is his secret of such a high implementation and success rate of his projects, accountability and good use of funding?

"Most importantly, it is about good Team-work which I have had with a really good Southern Region Commissioner and the Council of Chiefs (COE) chairmen on the Southern Region which is resulting in us achieving our goals. If I can't work with the Commissioner and the COE's, these goals wouldn't have been achieved.

Hon Steven Pirika-Kamma, South Bougainville MP

"Transparency & Accountability must be seen by the people so that the Leader they elected is working for the benefit of his people"

EARTHMOVER : One of Jomik's earthmoving trucks engaged in upgrading and fixing roads in South Bougainville

"Secondly, under our 5 year roll-out plan, we have allocated all the DSIP money totaling to K10 million, in the relevant projects which will bring benefit, service and development to the people," says Mr Pirika-Kamma.

Out of the 320 projects already implemented, 76 are feeder roads in the Southern Region, Health and Education facilities. In the Health front, the MP has allocated new 10-seater ambulances to the Monoitu Health Centre in Siwai, another for the Torokina District and one to be delivered soon to the Piano Health Centre in the Buin District. He has also given sea ambulances or motor boat each in cases of emergencies to the coastal areas of the districts including Buin, Mamagota/Aitara and Mamarego in Torokina.

Mr Pirika-Kamma has also paid K1million from his NDF to PNG Power for an 1-A power station consisting of two generator sets for Buin Town which will boost economic activity in town, enhance

the work of public servants and service delivery as well as boosting the new border post establishment in Buin, 2-A feasibility study for hydro power also in Buin, 3-A feasibility study for a new hydro-power in Torokina.

He is also working with Telikom PNG to bring much needed communication and modern technology services to the people of South Bougainville.

For the VSAT services which have been established recently at Ameu and Katukuh in Siwai, Mamarego and Torokina in the Torokina District, Sovele in Bana and Wisai in Buin, it was done with counterpart funding with Telikom PNG, Mr Pirika-Kamma says.

He has also committed K600,000 to upgrade wireless network in the Southern Region of which funds have been approved and will be released soon, just waiting for the cheque presentation. Mr Pirika-Kamma says that funds for the VSAT project was from New Zealand AID (NZ AID). He says that Buin will have Mobile Phone services by mid this year which will take communication service to the people's very doorsteps.

The MP's DSIP and MDF funds are all with the Treasury in Buka, thus the MP does not have funds to dish out.

Mr Pirika-Kamma meets with the Commissioner and the COE Chairmen as well as the Budget Priority Committee on a quarterly basis on the allocation and usage of the funds. He says that people are now happy with the developments and the tangible benefits they are seeing and using.

"People are seeing a lot of changes in the feeder roads which we have been upgraded, maintained and fixed. The Laguai and Haisi feeder roads are two which are greatly benefiting the communities," says Mr Pirika-Kamma.

He says the roads are more like "economic roads" which are helping in the area of commodity trading especially in transporting cocoa and copra.

These are foundation works and projects which MP Pirika-Kamma has initiated and working on in his first term in parliament. He has great potential in delivering and implementing which one just has to see the evidence in the various areas of South Bougainville.

"The real impacts will be seen after 2012. But in my current term, I want to see good roads, schools, health facilities, economic routes and people making money and improving their lives," concludes Hon. Steven Pirika-Kamma.

South Bougainville develops under MP Steven Pirika

By Fidelis Lucio-DWU journalism student

TRANSPARENCY must be seen by the people.

This is according to South Bougainville MP Hon Steven Pirika-Kamma during a speech in Buin Town recently.

He said that it is important that transparency and accountability must be seen by the people so that they will know that the leader they elected is working to benefit his people.

Honourable Pirika-Kamma with his team from the Rural Development Office in Port Moresby toured all of South Bougainville except for Torokina district checking out on DSIP (District Services Improvement Program) projects.

About 62 feeder roads out of 71 were fixed and many other minor works such as building of new classrooms and aidposts have been successfully completed within a one year period.

In comparison to other regions of the Autonomous region, North Bougainville had only 42 projects this year, Central Bougainville with only 18 projects while South Bougainville leads with 310 projects.

According to Honourable Pirika-Kamma, South Bougainville received only K6million from the National Government while North and Central Bougainville received the full allocated acquittal which is K10 million.

Looking into next year's budget, South Bougainville is likely to development faster than the other two electorates as seen by the Manager of Rural Development in the Islands region, Mr Vaia Vaii.

Currently South Bougainville is leading in economic recovery, development and service delivery but last in law and order.

The people in South Bougainville were impressed by what the DSIP through their Member Pirika-Kamma has done which boosted their living standards.

Tonu High to have six new staff houses

By Fidelis Lucio -DWU journalism student

TONU High school will have six new staff houses to be completed soon.

The Commissioner for South Bougainville Mr. Joe Lera said that these six new staff houses are funded by PNG Sustainability fund and the ABG.

The scope of work was funded by the South Bougainville, MP Honourable Steven Pirika-Kamma with costs amounting to about K100,000.

Many of the school buildings deteriorated in the past years due to lack of funding by irresponsible leaders and the status of the school remained the same all through the years.

Honourable Steven Pirika-Kamma is looking forward to helping the school in rehabilitating the school properties which will eventually boost the standard of Education in South Bougainville and all over the Autonomous region as a whole.

Apart from the six new staff houses, the DSIP (District Services Improvement Program) will fund a four in one classroom which will cost K100,000.

The DSIP will also fund a dormitory, a chapel for the school and refurbish the boys' ablution block.

The construction of the dormitory started in January and there is a proposed water supply which will be built that will supply water to staff houses and student dormitories.

The Headmistress of Tonu High School, Mrs. Joy Purauko said she was happy with the development which was taking place in the school and said that she was looking forward to other projects which will come into the school.

She also said that the people are proud of the projects in the school and praised the member for his great contribution not only in the school but in other projects such as the grading of feeder roads in the South Bougainville electorate.

Rice Milling in Buin

By Fidelis Lucio
DWU journalism student

THERE are now two rice fields in the Laguai area of Buin in the Autonomous Region of Bougainville.

The owner of the Laguai rice fields, Mr Justin Kokiai, said he was proud of owning the rice fields which are currently saving money.

The Autonomous Bougainville Government (ABG) aided them with a small rice milling machine which can mill up to 250 kg per hour.

"The milling machine is too small and I'm appealing to those responsible for the agricultural sector in the ABG to donate an equitable machine and also to encourage people to be self-reliant by planting their own rice," Justin said.

Since Justin and his community started planting rice, many people have also started to plant rice in small scales farms and currently

there are about four rice fields in Buin.

Mr. Justin also said that since Laguai is in a remote setting, planting rice is very beneficial for them saving them the long walk to town to buy rice.

Since the establishment of the Laguai rice field, a rice committee was set up according to the seven clans in the Laguai area which had a total population of about 2000 people.

The people of Laguai are cooperating well with the aim of establishing a bigger rice field in the future.

The other rice field is located in the Tokaino area which is also in Buin which has a much bigger rice miller that can mill up to 1000 kg for one hour.

Member Pirika was impressed by what the people of Laguai are doing and said that this sort of self-reliance will greatly boost the agricultural sector in Bougainville.

Pirika to assist Health and Education facilities in south Bougainville

By Aloysius Laukai

THE Honourable member for South Bougainville recently made a surprise visit to education and health facilities in South Bougainville.

Mr Pirika -Kamma surprisingly went to the Buin Vocational centre recently while the students were cutting their lawn with grass knives and he promised to get them four lawn mowers for the School and including a school truck.

At Buin Secondary school the teachers were meeting to petition the members concerning the state of the school, however the petition was handed to the member.

The petition was for education authorities to recruit teachers for the school.

The school this year has about seven hundred students whilst half of the teachers were not there.

The member promised to buy a tractor and a slasher for the school.

The member also visited the Buin Health centre where he promised to replace some

aging buildings.

He was in the Southern Region with communication engineers from South Korea who would be building a television program for schools called E Education.

TEACHER SHORTAGE A CONCERN: Some of the students who are affected by the shortage of teachers at Buin Secondary

By Aloysius Laukai

BUIN Secondary School was upgraded just before the last general election without building facilities to go with the upgrading.

The New Principal, Tony Malamo told New Dawn FM recently that the School should not have been upgraded before building facilities.

Meanwhile, Buin Secondary school started very badly this year with less than half its staff appointed to the school.

Out of the twenty-seven staff ceiling only twelve were at the school with fifteen yet to be appointed to the school.

An emotional Mr Malamo told a visiting delegation led by the Member for South Bougainville Steven Pirika Kamma to immediately see the education officials in Buka to quickly recruit teachers for Buin Secondary school.

The MP sympathised with the teachers and promised to take it up with education authorities.

DISP has a great impact on South Bougainville

By Fidelis Lucio- DWU journalism student

DISTRICT Services Improvement Program (DSIP) has a great impact on South Bougainville than in other parts of the Autonomous Region.

Manager of the Rural Development in the Niugini Islands Mr Vaia Vaii was very impressed about the DSIP progress in South Bougainville and praised the member for South Bougainville Hon Steven Pirika-Kamma for the great work he has done in a period of one year.

Mr. Vaii said that the development trend in PNG has gone down and that DSIP was set up to empower districts and the people in the village level.

"It's incredible to see what DSIP has done in South Bougainville under the leadership of a true leader Mr Pirika-Kamma," said Mr. Vaii.

Mr. Vaii also said that most of the acquittals are misused at the provincial level and to bypass many hands, we work with the districts to deliver services straight down to the people.

Mr. Pirika-Kamma has set a good ex-

ample and a challenge to other Bougainville MPs to use acquittals properly for benefit of all the people.

Mr. Vaii said that the DSIP is here to stay in South Bougainville and congratulated the Member with his team for the successful completion of the DSIP projects and those that are not yet completed.

The DSIP looks after K118 million for 89 districts in the country and a good example for those districts that have the greatest impact is South Bougainville.

Mr. Vaii also asked the District Administrators of the four districts of South Bougainville to work together in administering the developmental projects in South Bougainville.

Mr. Vaii added that the member has done what the previous leaders should have done and now the people are now feeling the presence of a leader who can improve their way of living.

On behalf of the people, a representative from Buin thanked the Member Pirika-Kamma, Commissioner Mr Lera and his team for the projects.

Billionaire visits

A BILLIONAIRE and owner of WR Carpenters and several big companies in Papua New Guinea briefly visited the Autonomous Region last week.

Sir Morgan made a courtesy call on the ABG President James Tanis before returning to Port Moresby after his two hour visit to Buka.

Sir. Morgan chartered the Government Executive Jet and was welcomed in Buka by the member for South Bougainville, Steven Pirika Kamma and other ABG officials.

Although the reason of his short visit was not known it is understood Sir Morgan wants to invest on Bougainville.

His company Coconut Products Limited(CPL) is the major copra buyer on Bougainville.

New elementary classrooms by DISP

By Fidelis Lucio DWU journalism student

THE children of Moma in the Siwai District are now fortunate to have a new elementary classroom.

The new four in one elementary classroom was funded by the District Services Improvement Program (DSIP) and was completed late this year.

The children will have the privilege to use it at the beginning of next year when the school year starts.

The children of Moma will no longer have to walk long distances to other elementary schools crossing fast flowing rivers which are usually dangerous for them.

The Sub Health centre at Moma was also rehabilitated and was also a part of the DSIP projects.

The District Services Improvement Program (DSIP) also has great impact in other parts of South Bougainville rehabilitating aid posts, classrooms as well as feeder roads and establishing small scale agricultural projects.

The people of South Bougainville are currently benefiting from the DSIP and appreciate the leadership of their Member Steven Pirika-Kamma.

Many of these aid posts and classrooms have been deteriorating and the former members did nothing to rehabilitate them.

Currently the Member for South Bougainville Honourable Steven Pirika-Kamma is developing his electorate and there has been great and real change in the period of one year.

The people are also happy because now that most of the feeder roads have been fixed, they have total access to sell most of their produce and cash crops in town.

The Member will be continuing the work of developing his electorate next year.

South definitely moving

By Aloysius Laukai

THE member for South Bougainville Honourable Stephen Pirika-Kamma wants South Bougainville to move forward and become an economically viable and powerful region.

He said that there is no reason why South Bougainville should remain stagnant whilst the rest of the Region is moving forward.

Mr Pirika-Kamma made these comments after visiting projects and proposed project sites in South Bougainville with South Korean investors recently.

Sites visited at the weekend included the Border Post location at Kangu, Proposed South Bougainville Sports Stadium at Buin, Buin Vocational, Buin Secondary School, Katukuh Health Centre, feeder roads and proposed short cut roads.

The Member also met with landowners of the proposed University Centre at Haisi in the Siwai area.

Member Pirika-Kamma said he wants to see the four districts of Torokina, Buin, Bana and Siwai with real and tangible developments.

He said that he wants to spread development to all the four districts of South Bougainville.

Lera comments on development in South Bougainville

By Tapo Tovilu -DWU Journalism student

BUIN town will become an industrial centre if it continues the way it is going.

This is according to Commissioner of South Bougainville, Joe Lera, who told the people of Buin town that they were at the centre of development.

"It will be up to us as individuals to look after development in our own areas," Mr. Lera said.

He said the District Services Improvement Program (DSIP) has had a great impact on South Bougainville than in other parts of the Autonomous Region.

DSIP reported that National Parliamentary member and Member for South Bougainville Honourable Steven Pirika-Kamma put in K10 million for development with K3 million coming from the

Autonomous Bougainville Government (ABG) while AUSAID gave K1million making a total of K14million for development in South Bougainville.

Mr. Lera said in a survey carried out by AUSAID in 2007, service delivery and development in South Bougainville was generally high with South Bougainville leading in development.

"The only problematic issue currently affecting South Bougainville is the law and order problem which is the highest anywhere in the region," Mr. Lera said.

He said South Bougainville has had a total of 320 projects which have been carried out in a period of 1 year.

Mr Lera congratulated the Honourable Steven Pirika-Kamma for where South Bougainville is currently at in terms of its development and said that this year, more is to come.

Konga to have training Center

By Tapo Tovilu- DWU Journalism student

KONGA in South Bougainville will see the construction of a new training and research centre which will be linked to the National Agriculture Research Institute.

The project was an initiative of the Member for South Bougainville, Honourable Steven Pirika-Kamma and is funded by AUS AID at a cost of K4.2 million.

The Training centre will have 22 permanent houses, accommodation for staff and training facilities.

The Member says that the land has been cleared by Jomik Plant Hire and now awaiting the materials to arrive for construction to begin. Mr Pirika-Kamma helped out backfilling with the help of Jomik Plant Hire who is a counterpart in the Konga Training Centre construction project. He says it was time we started developing Bougainville because no one was going to do it for us.
